Here are five things to know if you're going to Albania Number one, Albania is a visa free country All you need is your passport and your BRP So if you are an African in the UK, all you need to get is your passport and your BRP and you're good to go Number two, strictly abide by the luggage specification of your chosen airline Now there are different airlines you can use You can use Ryanair, you can use Whizair and any other airline that you know of Those are the two that I'm very familiar with But make sure, make sure you abide by your luggage specification because I'm telling you this container below is where they fit your bag into It's really small, smaller than what this picture is looking like So make sure you go online and get the exact specification Make sure that your bag can fit in here because I'm telling you if you do not fit your bag in here, you are going to be paying for extra luggage and it is not cheap You're going to be paying between 40 to 50 pounds for extra luggage way more expensive than the flight Totally, airlines like Ryanair, Whizair, they are usually fully packed and everything including water

is sold under airline I'm telling you, you don't get anything for free Even water, you have to pay for it It was quite new to me because in other flights that I've taken, you could get water and stop or just be prepared and their seats don't have where you could plug your quad, maybe your charger to charge your phone Their seats don't have it so you have to make sure that your phone is fully charged before you leave the house Don't assume you're going to charge your phone in the airplane like I did because it doesn't have it It's fully packed and you have to pay for everything Okay Number four, make sure you travel with cash and with your ATM Now it's important for you to travel cash so you can exchange it when you get to Albania and if you run out of cash, you can use your ATM Don't get stranded Don't forget your ATM Your ATM can be used I don't know if it's all ATMs that can be used but I know that Monzo, these digital ATMs or these online banks, you can use your ATMs there so make sure you go with your cash and your ATM I don't know if this applies to all the hotel rooms but the hotel room will stay at heart this There are sockets that could fit heads like this and not like this This was what my charger looked like so I couldn't plug my phone all through my stay I only charged my phone using a cord I could connect the cord and charge my phone so I just thought that you should bear that in mind so that if you're going to go with an extension box, I don't know, whatever the plan is, just know that your room might just be like that and might be difficult for you to charge Those are the top tips I'll give you while you're preparing to travel to Albania In the next video, I'm going to be sharing five places you must visit if you're traveling to Tirana, Albania, you don't want to miss it Bye THANDIE: Girl you're an angel ■ Movies Zone■♥■: Do you need travel insurance?
